

Call for Papers

IEEE eGrid 2020 offers participants from research and industry worldwide to present their latest research and project findings in the field of DC grids. Participants are invited to submit extended abstracts related to the following topics of interest.

Main Topics

Power Electronics in Transmission
and Distribution Systems

Grid Planning, Control,
Automation

Social-Economical Aspects,
Regulatory and Standards

Notice concerning the COVID19 crisis

In view to the unpredictable global development of the ongoing COVID19 crisis, it is not clear if overseas travelling will be normalized by November 2020. Hence, we plan to prepare a hybrid local & on-line eGRID workshop, offering speakers, panelists and authors from overseas the opportunity to give an online ZOOM presentation.

Call for Tutorials

IEEE eGrid 2020 offers participants from research and industry worldwide to hold tutorials on

November 2, 2020.

Participants are invited to submit extended abstracts/descriptions, which will be reviewed for consideration by the conference board.

Length of tutorials is 3 or 6 hours.

Proposals must include:

Title of tutorial

Abstract/description
(approximately 150 words)

Target audience

Prerequisites

Learning objectives

Instructor's name(s)/
